

The Killeen-Temple Metropolitan Planning
Organization invites you to attend a Freight
Forum and Workshop!

Tuesday, April 26, 2016 at 10 am
At the Central Texas Council of Governments
2180 North Main St. Belton, Texas

The forum is an opportunity to express any freight handling or movement issues. Specifically, a chance to discuss areas containing low clearances, difficult turn radiuses, etc...

The workshop will include guest speakers from TxDOT, North Central Texas Council of Governments, and the Federal Highway Administration. There will also be visual aids to physically pin point the problematic areas discussed.

If you have questions, comments, or wish to RSVP
please contact Jim Martin at jimmy.martin@ctcog.org
or 254-770-6324.
