

Transportation Improvement Program (TIP) Fiscal Years 2025-2028

Public Meeting Date:

April 3, 2024

April 18, 2024

Approved by the TPPB:

May 15, 2024

Amended by the TPPB:

October 16, 2024

April 16, 2025

July 16, 2025

Acknowledgement

The preparation of this document was financed in part through Federal Highway Administration (FHWA) PL 112 Funds and Federal Transit Administration (FTA) Planning Funds made available to the Killeen-Temple Metropolitan Planning Organization (KTMPO) as the designated Metropolitan Planning Organization. KTMPO prepared this document in cooperation with FHWA, FTA, and the Texas Department of Transportation (TxDOT).

Submitted By

The Killeen – Temple Metropolitan Planning Organization in cooperation with:

Bell County	City of Nolanville
Coryell County	City of Rogers
Lampasas County	Village of Salado
City of Bartlett	City of Temple
City of Belton	City of Troy
City of Copperas Cove	Fort Hood
City of Harker Heights	Hill Country Transit District
City of Holland	TxDOT - Waco District
City of Kempner	TxDOT - Brownwood District
City of Killeen	Federal Highway Administration
City of Little River/Academy	Federal Transit Administration
City of Morgan's Point Resort

Introduction

The Killeen-Temple Metropolitan Planning Organization (KTMO) is guided by a Transportation Planning Policy Board (TPPB) whose membership is defined in an officially adopted set of Bylaws. The TPPB provides policy guidance for the organization and is responsible for reviewing and approving the Metropolitan Planning Organization's Metropolitan Transportation Plan (MTP), the Transportation Improvement Program (TIP), and the Unified Planning Work Program (UPWP). A Technical Advisory Committee (TAC) is appointed by the TPPB to review projects from the technical point of view and advise the TPPB on technical issues. MPO staff is comprised of planning and technical professionals responsible for the administration of this organization.

The Central Texas Council of Governments (CTCOG) is under contract to TxDOT to provide professional staff and technical and administrative support for KTMO according to federal funding agency guidelines. Currently, an MPO Director, MPO Manager, three Regional Planners, a GIS Technician and Administrative Support staff are available to assist the MPO.

Definition of Area

The KTMPO planning area includes the following cities: Bartlett, Belton, Copperas Cove, Harker Heights, Holland, Kempner, Killeen, Little River/Academy, Morgan's Point Resort, Nolanville, Rogers, Salado, Temple, and Troy. The KTMPO boundary includes all of Bell County and parts of Coryell and Lampasas Counties along with portions of Fort Hood. The planning area includes areas that may be reasonably expected to become urbanized in the next 25 years in between those cities and within the counties of Bell, Coryell, and Lampasas. The boundary includes portions of the Waco (Bell and Coryell) and Brownwood (Lampasas) Districts of the Texas Department of Transportation.

KTMPO was designated a Transportation Management Area (TMA) in 2012 following the release of 2010 Census data which estimated the population of the Killeen Urbanized Area (UZA) at 217,630 and the population of the Temple-Belton UZA at 90,390. At the release of the 2020 Census data the updated estimated population of the Killeen UZA was 265,921 and the population of the Temple-Belton UZA was 120,240.

Transportation Improvement Program (TIP) Structure

The TIP is a short-range program which must be developed at both the metropolitan and state levels. Each MPO develops a TIP for their area in cooperation with the State and any affected transit operators. The metropolitan areas will be asked to update the program at least once every four years and it is approved by the MPO and the Governor. The TIP must cover a minimum of four years for a metropolitan area and for the State. Projects listed in the TIP must reflect the factors considered in the long-range planning process.

Citizens must be given the opportunity to comment on any new transportation plans or amendments to existing plans as outlined in KTMPO's Public Engagement Plan (PEP) which can be viewed on the KTMPO [website](#). These plans or amendments must also be reviewed and approved by the KTMPO TPPB to ensure all transportation plans and programs are consistent with the goals and objectives for the KTMPO area. When reviewing plans and amendments, the TPPB must take into consideration any public comments that were received during the public comment period.

The TIP contains a project listing that includes those projects funded within the four-year period covered by the TIP. The project listing consists of the following:

- Federally and State Funded Highway Projects
- Grouped Projects
- Federally Funded Transit Projects

The following appendices are contained within the TIP:

- Appendix A: Funding Categories
- Appendix B: Grouped Candidate Project Listing
- Appendix C: MPO Self-Certification
- Appendix D: Extended Project Listing
- Appendix E: TIP Amendment Summary
- Appendix F: Public Engagement Documentation

Federal and State Requirements

On November 15, 2021, the Bipartisan Infrastructure Law (BIL), was signed into law. This legislation reauthorized the surface transportation programs for FY22 through FY26. In December 2015, the Fixing America's Surface Transportation Act, or "FAST Act," was signed into law. The FAST Act continues the Metropolitan Planning Program and continues to require metropolitan transportation plans and transportation improvement programs (TIPs) to provide for facilities that enable an intermodal transportation system, including pedestrian and bicycle facilities. It adds to this list other facilities that support intercity transportation (including intercity buses, intercity bus facilities, and commuter vanpool providers). The FAST Act also requires that the metropolitan long-range plan include identification of public transportation facilities and intercity bus facilities. [23 U.S.C. 134(c)(2) & (i)(2)].

The previous federal legislation, MAP-21 or “Moving Ahead for Progress in the 21st Century Act,” set forth eight planning factors that all transportation projects and programs must address:

- 1) Support the economic vitality of the metropolitan area, especially by enabling global competitiveness, productivity, and efficiency;
- 2) Increase the safety of the transportation system for motorized and non-motorized users;
- 3) Increase the security of the transportation system for motorized and non-motorized users;
- 4) Increase the accessibility and mobility of people and for freight;
- 5) Protect and enhance the environment, promote energy conservation, improve the quality of life, and promote consistency between transportation improvements and state and local planned growth and economic development patterns;
- 6) Enhance the integration and connectivity of the transportation system, across and between modes, for people and freight;
- 7) Promote efficient system management and operation; and
- 8) Emphasize the preservation of the existing transportation system.

The FAST Act maintains those factors but adds the following new factors:

- 1) Improving transportation system resiliency and reliability;
- 2) Reducing (or mitigating) the storm water impacts of surface transportation; and
- 3) Enhancing travel and tourism.

A key feature of MAP-21 was the establishment of performance targets and measures at the national, state, and local level. The FAST Act made no changes to those performance measures. Therefore, all established performance targets and measures should align with the national goals which were outlined in MAP-21 and carried forward in the FAST Act. Those measures are as follows:

- 1) Safety - To achieve a significant reduction in traffic fatalities and serious injuries on all public roads.
- 2) Infrastructure condition - To maintain the highway infrastructure asset system in a state of good repair.
- 3) Congestion reduction - To achieve a significant reduction in congestion on the National Highway System.
- 4) System reliability - To improve the efficiency of the surface transportation system.
- 5) Freight movement and economic vitality - To improve the national freight network, strengthen the ability of rural communities to access national and international trade markets, and support regional economic development.
- 6) Environmental sustainability - To enhance the performance of the transportation system while protecting and enhancing the natural environment.
- 7) Reduced project delivery delays - To reduce project costs, promote jobs and the economy, and expedite the movement of people and goods by accelerating project completion through eliminating delays in the project development and delivery process,

including reducing regulatory burdens and improving agencies' work practices.

Specific quantitative criteria have been published by the Secretary of Transportation to measure whether these goals are being achieved. State guidelines have also been provided and KTMPO regularly reviews these metrics to evaluate KTMPO's goals, objectives, and performance measures in their ability to support the state performance targets. The KTMPO public engagement process provides citizens, public agencies, transportation agencies, private transportation providers, and other interested parties with a reasonable opportunity to comment in the transportation planning process as required by FAST Act.

Regional Performance Targets

The Fixing America's Surface Transportation (FAST) Act requires KTMPO to adopt regional performance targets to better utilize transportation investments in the KTMPO region. In this approach, goals, measures, and data are used to inform policy makers about how to invest in a better performing regional transportation system. Transportation funds are intended to target projects aimed at achieving set performance targets for, safety, pavement/bridge condition, system performance, State of Good Repair (transit), and transit safety. To comply with federal requirements, KTMPO initiated the process for selecting performance measure targets in 2016 and has continued refining and adopting new targets on an annual or biannual basis as necessary. Additional information regarding these targets and other federally required performance measures can be found at [FHWA's Transportation Performance Management](#) website.

Adoption Schedule of Performance Measures	
Performance Measure	Frequency
FHWA Safety Measures (PM 1)	Annually
FHWA Pavement / Bridge Performance Measures (PM 2)	Every Two Years
FHWA System Performance / CMAQ / Freight Measures (PM 3)	Every Two Years
FTA Transit Asset Management (TAM)	Annually
FTA Agency Safety Plan (PTASP)	Annually

Safety Performance Measures (PM 1)

KTMPO Safety Measures (PM 1)	
Federal Rule	
23 CFR 490.207(a1-5)	
Purpose	
The Safety Performance Rule (PM 1), establishes safety performance measures to address fatalities and serious injuries on roadways and to better invest transportation funding for safety improvement projects to support safe roadway networks. Five federally required safety performance measures include: • Number of fatalities; • Fatalities per million miles traveled; • Number of serious injuries; • Serious injuries per million vehicle miles traveled; • Number of non-motorized fatalities and non-motorized serious injuries.	
Data Sources	
• National Highway Traffic Safety Administration (NHTSA)'s Fatality Analysis Reporting System (FARS) database, which is a primary source for fatality data, published annually and updated with preliminary and final data. It is used to calculate safety performance measures like the number of fatalities and fatality rates per 100 million vehicle miles traveled (VMT) • FHWA's Highway Safety Information System (HSIS) which provides quality data on crash, roadway, and traffic variables • Local data through community engagement (walk audits, road safety audits, field safety reviews, health impact assessments)	
At the State Level	
States must collect and report safety data, including their safety targets and progress towards meeting those targets. TxDOT uses a Transportation Asset Management Plan (TAMP) to analyze performance and project future conditions. TxDOT's data and targets can be found on the TxDOT's Safety Performance Dashboard.	
At the MPO Level	
MPOs must collect and report safety data, including their safety targets and progress towards meeting those targets. KTMPO's targets can be found in the chart below.	
Historical TPPB Annual Adoption Dates	
• January 2018 adoption of State Targets • January 2019 adoption of State Targets • February 2020 adoption of State Targets • March 2021 adoption of State Targets • February 2022 adoption of State Targets • January 2023 adoption of State Targets	

- January 2024 adoption of region-specific Targets
- February 2025 adoption of KTMPO region-specific Targets

The following are KTMPO's most recently adopted regional Safety targets:

KTMPO Safety Measures (PM 1)	
Mode	Target
Traffic Fatalities	54
Serious Injuries	298
Fatalities per 100 million VMT	1.38
Serious Injuries per 100 million VMT	7.63
Number of Non-Motorized Fatalities and Non-Motorized Serious Injuries	32

KTMPO Policy Board will continue the adoption of safety targets on an annual basis as required by the federal planning Rule.

By setting region specific safety targets, KTMPO plans on doing the following:

- Work with the state and safety stakeholders to address areas of concern for fatalities or serious injuries within the MPO planning area; Coordinate with the state and include in the Metropolitan Transportation Plan (MTP) the safety performance measures and targets for all public roads in the metropolitan area;
- Integrate into the planning process the safety goals, objectives, performance measures and targets described in other state safety transportation plans and processes such as applicable portions of the Highway Safety Implementation Plan (HSIP);
- Use data to identify areas that have shown a concentration of accidents and continue to use crash rates as one of our scoring criteria to select projects that support the regional goals;
- Use this information as part of our public outreach efforts to educate drivers about ways they can drive more safely and reduce accidents.

Some recommendations may be made to reduce the recurrence of crashes at particular locations, such as:

- Upgrades to existing transportation infrastructure;
- Modification or implementation of safety infrastructure;

- Creation of alternative routes to alleviate congestion;
- Public campaigns promoting a particular safety issue;
- Requirement of the use of motorcycle and bicycle safety gear;
- An assessment of the transportation network to determine driver decisions

To assess progress towards meeting KTMPO's targets, projects located in both the TIP and the MTP are evaluated for both fatality and serious injury rate. Projects are measured using the project location's number of fatalities and serious injury rate per 100 million vehicle miles traveled against the statewide 5-year rolling average. A higher difference indicates that a location has more safety issues than the statewide average. A higher difference receives a higher score for a safety project, therefore, a project that addresses hazardous roadways may receive a higher ranking. For future projects, KTMPO plans to continue to review and possibly reweight project scoring criteria and use crash rates to evaluate transportation projects to further support the regions targets for a safe transportation system. In time, as projects are completed and reliable performance measure related data becomes available, KTMPO will be able to determine the attainment of these performance measures and if adjustments are needed.

Infrastructure or Pavement / Bridge Condition Measures (PM 2)

Pavement / Bridge Condition Measures (PM 2)	
Federal Rule	
23 CFR 490.307 , 23 CFR 490.407	
Purpose	
The Pavement / Bridge Condition Rule (PM 2), establishes performance measures to assess the condition of pavement on the Interstate and non-Interstate systems and to better invest transportation funding for infrastructure projects that maintain good quality roads. Four federally required pavement condition performance measures include: • Percentage of pavements on the Interstate System in Good condition, • Percentage of pavements on the Interstate System in Poor condition, • Percentage of pavements on the non-Interstate NHS in Good condition, and • Percentage of pavements on the non-Interstate NHS in Poor condition. The Bridge Condition Rule (PM2), establishes measures to assess the condition of bridges on the National Highway System (NHS) and to better invest transportation funding for infrastructure projects that maintain good quality bridges. Two federally required bridge condition performance measures include: • Percentage of NHS bridges classified as in Good condition, and • Percentage of NHS bridges classified as in Poor condition.	
Data Sources	
Pavement data sources:	

• International Roughness Index (IR), rutting, faulting, and cracking • Highway Performance Monitoring System (HPMS) • TxDOT Pavement Management Information System (PMIS) Bridge data sources: • National Bridge Inventory evaluation ratings for the bridge's deck, superstructure, substructure, and culvert. • The bridge targets are expressed in the percent of total bridge deck area. Deck area is computed using the structure length and deck width. For culverts, the deck area is calculated using the approach roadway width and structure length.
At the State Level
States must collect and report Pavement and Bridge data, including their targets and progress towards meeting those targets. TxDOT uses a Transportation Asset Management Plan (TAMP) to analyze performance and project future conditions. TxDOT's data and targets can be found on the TxDOT's Pavement and Bridge Performance Dashboard .
At the MPO Level
MPOs must collect and report Pavement and Bridge data, including their targets and progress towards meeting those targets. KTMPO's targets can be found in the chart below.
Historical TPPB Biennial Adoption Dates
• November 2018 adoption of State Targets • December 2020 adoption of State Targets • June 2023 adoption of State Targets • February 2025 adoption of State Targets

The following are KTMPO's most recently adopted Pavement and Bridge targets:

KTMPO Pavement Performance Measures (PM 2)				
Highway	Performance Measure	2022 State Baseline	2024 State 2-Year Target	2026 State 4-Year Target
IH	Good	64.5%	63.9%	63.6%
	Poor	0.1%	0.2%	0.2%
Non-IH	Good	51.7%	45.5%	46.0%
	Poor	1.3%	1.5%	2.5%*

KTMPO Bridge Performance Measures (PM 2)				
Highway	Performance Measure	2022 State Baseline	2024 State 2-Year Target	2026 State 4-Year Target
NHS	Good	49.2%	48.5%	47.6%
	Poor	1.1%	1.5%	1.5%

To assess progress towards meeting KTMPO's targets, projects located in both the TIP and the MTP are evaluated for their ability to achieve and sustain a desired state of good repair over the lifecycle of the physical asset. Bridges are evaluated based on structural sufficiency, while roadways are evaluated using a pavement condition index (PCI). A project with a higher percent of improvement receives a higher score compared to a project with a lower percent of improvement. For future projects, KTMPO plans to continue to review and possibly reweight project scoring criteria to identify transportation projects that contribute to asset preservation and a state of good repair. In time, as projects are completed and reliable performance measure related data becomes available, KTMPO will be able to determine the attainment of these performance measures and if adjustments are needed.

System Performance / Freight / CMAQ Measures (PM 3)

The System Performance/Freight/CMAQ Rule (PM 3), found in 23 CFR 490.507(a1-2)(b), 23 CFR 490.607, 23 CFR 490.707(a,b), and 23 CFR 490.807, establishes measures based on Level of Travel Time Reliability (LOTTR), Total Peak Hour Excessive Delay person-hours, Truck Travel Time Reliability Index, percent of trips that are Non-SOV, Total Emission Reductions and Annual Total Tailpipe CO₂ Emissions on NHS. This performance measure is evaluated using NPMRDS, speed limits, auto occupancy, HPMS, fuel sales statistics, the American Community Survey, and CMAQ Public Access System for air quality measures.

In April 2022, the Texas A&M Transportation Institute (TTI) provided KTMPO with local numbers and updated estimates for regional system performance metrics. On August 17, 2022 the TPPB adopted the following local targets for System Performance Measures in 2022:

System Performance / Freight / CMAQ Measures (PM 3)
Federal Rule
23 CFR 490.501-513 , 23 CFR 490.601-613 , 23 CFR 490.701-713 , 23 CFR 490.801-811
Purpose
The System Performance measures the efficiency and reliability of the overall transportation network. Two federally required system performance measures include:

• Percent of Person Miles of Travel on the Interstate System that is Reliable (Level of Travel Time Reliability) • Percent of Person Miles of Travel on the Non-Interstate National Highway System (NHS) that is Reliable (Level of Travel Time Reliability) The Freight measures are established to improve efficiency of freight movement and identify freight bottlenecks. One federally required freight reliability performance measure includes: • Truck Travel Time Reliability (TTTR) Congestion Mitigation and Air Quality Improvement (CMAQ) program recognizes investments for Non-Attainment areas that increase multimodal solutions and vehicle occupancy levels as strategies to reduce both criteria pollutant emissions and congestion. Three federally required CMAQ performance measures (if non-attainment) include: • Peak Hour Excessive Delay (PHED) • Percent Non-Single Occupancy Vehicle (Non-SOV) Travel • Total Emissions Reductions (NOx and VOC)
Data Sources
System Performance data sources: • Level of Travel Time Reliability (LOTTR) • National Performance Measure Research Data Set (NPMRDS) Freight data sources: • Truck Travel Time Reliability (TTTR) Index • National Performance Measure Research Data Set (NPMRDS) CMAQ data sources (if non-attainment): • Annual hours of Peak Hour Excessive Delay (PHED) per capita on the NHS • American Community Survey (ACS) Commuting (Journey to Work) • DOT and MPO localized surveys • DOT and MPO volume/usage counts by mode
At the State Level
States must collect and report System Reliability, Freight and CMAQ data, including their targets and progress towards meeting those targets. TxDOT's Optimize System Performance page tracks travel times across Texas to identify areas for improvement. The TxDOT Performance Dashboard provides data on congestion, travel times, and other performance measures, allowing citizens to see how TxDOT is performing. TxDOT utilizes Transportation Systems Management and Operations (TSMO) strategies and technologies to optimize traffic flow and improve reliability .
At the MPO Level
MPOs must collect and report System Reliability, Freight and CMAQ (if non-attainment) data, including their targets and progress towards meeting those targets. KTMPO's targets can be found in the chart below.
Historical TPPB Biennial Adoption Dates
• November 2018 adoption of State Targets • December 2020 adoption of State Targets

- August 2022 adoption of State Targets
- February 2025 no adoption required as State Targets were not adjusted

The following are KTMPO's 2022 adopted System Performance and Freight targets (CMAQ not required as KTMPO is In-Attainment):

System Performance / Freight (PM 3)			
Performance Measure	2022	2024 (2-Year)	2026 (4-Year)
	State Baseline	State Target	State Target
Reliable Person-Miles on Interstate NHS (%)	84.6%	70.0%	70.0%
Reliable Person-Miles on Non-Interstate NHS (%)	90.3%	70.0%	70.0%
Truck Travel Time Reliability Index	1.39	1.55	1.55

To assess progress towards meeting KTMPO's targets, projects located in both the TIP and the MTP are evaluated for their ability to achieve system reliability in regard to people and freight movement. For future projects, KTMPO plans to continue to review and possibly reweight project scoring criteria to identify transportation projects that contribute to system reliability. In time, as projects are completed and reliable performance measure related data becomes available, KTMPO will be able to determine the attainment of these performance measures and if adjustments are needed.

Transit Asset Management / State of Good Repair Performance Measures

Transit Asset Management / State of Good Repair Performance Measures
Federal Rule
49 CFR 625.43(a,b,c,d)
Purpose
The Transit Asset Management / State of Good Repair Performance Rule establishes performance measures to assess the condition of regional transit networks as defined as State of Good Repair (SGR) and documented in a transit agency's Transit Asset Management Plan (TAMP). These targets evaluate how well a transit system is performing to provide safe, cost-effective, and reliable public transportation. Four federally required system performance measures include: • Equipment: the percentage of non-revenue, support-service and maintenance vehicles that have either met or exceeded their Useful Life Benchmark (ULB). • Rolling stock: the percentage of revenue vehicles within a particular asset class that have either met or exceeded their ULB.

• Infrastructure: the percentage of track segments with performance restrictions for rail fixed-guideway, track, signals, and systems. • Facilities: the percentage of facilities within an asset class, rated below condition 3 on the Transit Economic Requirements Model (TERM) scale.
Data Sources
• National Transit Database (NTD) • Asset Inventories • Condition Assessments • Performance Data • Maintenance and Repair Data • Life Cycle Cost Data • State of Good Repair (SGR)
At the State Level
TxDOT's Public Transportation Division is responsible for usage oversight, this includes monitoring Subrecipients that purchase real property, rolling stock, and equipment when TxDOT is the Direct Recipient. TxDOT's oversight also includes asset inventory, maintenance schedule reviews (facility, equipment, and vehicle), bi-annual asset inspections, annual insurance checks, and asset disposition.
At the MPO Level
Hill Country Transit District (HCTD) serves as the transit operator and designated recipient for federal transit funding within the urban service area. HCTD establishes State of Good Repair (SOGR) performance targets and objectives for both their urban and rural systems in their TAMP. While MPOs are not required to develop full TAM plans, they do need to participate in setting performance targets that reflect the condition and performance of transit assets in their area. These targets should address performance measures or standards established in the TAM Final rule, coordinating with transit providers to the maximum extent practicable. MPOs also need to share TAM data with their State and MPO planning partners. KTMPO's targets can be found in the chart below. • HCTD SOGR targets are to have less than 30% of assets within each group (fleet vehicles, maintenance equipment, and facilities) exceed their useful life benchmark.
Historical TPPB Annual Adoption Dates
• June 2017 adoption of HCTD Targets • July 2018 adoption of HCTD Targets • January 2019 adoption of HCTD Targets • February 2020 adoption of HCTD Targets • March 2021 adoption of HCTD Targets • March 2022 adoption of HCTD Targets • February 2023 adoption of HCTD Targets • February 2024 adoption of HCTD Targets • March 2025 adoption of HCTD Targets

The following are KTMPO's most recently adopted HCTD's Transit Asset Management / State of Good Repair targets.

Transit Asset Management / State of Good Repair Performance					
Asset Category		Total # of Assets	# of Assets that exceeded their ULB	Percentage of Assets that have exceeded their ULB	
Admin Support Vehicles		0	0		
Urban Vehicle Type	Urban Support Vehicles	11	11	100.0%	
	Temple FRS Buses	6	2	33.3%	
	Temple Cutaway	13	10	76.9%	
	Temple Vans	18	0	0.0%	
	Killeen FRS Buses	12	5	41.7%	
	Killeen Cutaway	23	5	21.7%	
	Killeen Vans	30	6	20.0%	
Urban Fleet		113	39	34.5%	
Rural Vehicle	Rural Support	1	1	100.0%	
	Rural Cutaway	24	8	33.3%	
	Rural Vans	16	5	31.3%	
	Rural Fleet	41	14	34.1%	Categorical Target
Total Rolling Stock		154	53	34.4%	=< 30%
Total Maintenance Equipment		39	27	69.2%	=< 30%
Total Buildings		5	0	0.0%	=< 30%

The inclusion of transit projects located in both the TIP and MTP are intended to support HCTD in achieving the SGR performance measures for the regional transportation system.

Public Transportation Agency Safety Plan (PTASP) Performance Measures

Public Transportation Agency Safety Plan (PTASP) Performance Measures
Federal Rule
49 CFR 673
Purpose

Public Transportation Agency Safety Plan (PTASP) Performance Rule requires Transit Providers to develop PTASPs to monitor and improve the safety of their transit systems. A core component of the process is monitoring and establishing targets for a series of performance measures related to: • Major Safety Events • Fatalities • Injuries • Assaults on Transit Workers • System Reliability
Data Sources
• National Public Transportation Safety Plan
At the State Level
TxDOT's Public Transportation Division reviews and approves each PTASP.
At the MPO Level
Hill Country Transit District (HCTD) serves as the transit operator and designated recipient for federal transit funding within the urban service area. While MPOs are not required to develop PTASPs, they do need to participate in setting performance targets, coordinating with transit providers to the maximum extent practicable. MPOs also need to share PTASP data with their State and MPO planning partners.
Historical TPPB Annual Adoption Dates
• December 2020 adoption of HCTD Targets • March 2022 adoption of HCTD Targets • February 2023 adoption of HCTD Targets • February 2024 adoption of HCTD Targets • March 2025 adoption of HCTD Targets

The following are KTMPO's most recently adopted HCTD's PTASP Performance Measures:

Fixed Route (Bus) Safety Performance Targets	
Mode	Target
Fatalities	0
Rate of Fatalities	0
Injuries	0
Rate of Injuries	0%
Safety Events	1
Rate of Safety Events	0.00017%

Mean Distance Between Major Mechanical Failure	10,321 VRM
--	------------

Demand Response Safety Performance Targets	
Mode	Target
Fatalities	0
Rate of Fatalities	0
Injuries	2
Rate of Injuries	0.00012%
Safety Events	3
Rate of Safety Events	0.00018%
Mean Distance Between Major Mechanical Failure	19,342 VRM
Other	0

The inclusion of transit projects located in both the TIP and MTP are intended to support HCTD in achieving the safety performance measures for the regional transportation system.

Supplemental Fast Act Compliance for Metropolitan Transportation Planning Process

The FAST Act also outlines supplement actions for KTMPO to remain in compliance. These actions are listed below:

1. Update Public Participation Plan (PPP) to include: a) public ports; b) private providers of transportation (including intercity bus operators, employer-based commuting programs, such as carpool program, vanpool program, transit benefits program, parking cash-out program, shuttle program, or telework program). (Ref: 23 CFR450.316(a))
2. Demonstrate consultation with agencies involved in: a) tourism; b) natural disaster risk reduction. (Ref: 23 CFR 450.316(b))
3. MPO(s), State(s), and the providers of public transportation shall jointly agree upon and develop specific written provisions for cooperatively developing and sharing information related to: a) transportation performance data; b) the selection of performance targets; c) the reporting of performance targets; d) the reporting of performance to be used in tracking progress toward attainment of critical outcomes

for the region of the MPO & the collection of data for the State asset management plan for the NHS. (Ref: 23 CFR 450.314(h))

4. Incorporate two new planning factors: a) Improve the resiliency and reliability of the transportation system and reduce or mitigate stormwater impacts of surface transportation; and b) Enhance travel and tourism. (Ref: 23 CFR 450.206(a)(9&10) and 306(b)(9&10)).
5. MTP includes an assessment of capital investment and other strategies to preserve the existing and future transportation system and reduce the vulnerability of the existing transportation infrastructure to natural disasters. (Ref: 23 CFR 450.324(f)(7)).
6. MTP includes a description of the (Federally required) performance measures and performance targets used in assessing the performance of the transportation system. (Ref: 23 CFR 450.324(f)(3)).
7. MTP includes a system evaluation report evaluating the condition and performance of the transportation system with respect to the (Federally required) performance targets including progress achieved by the MPO toward the performance targets. (Ref: 23 CFR 450.324(f)(4)).
8. STIP/TIPs include (to the maximum extent practicable) a description of the anticipated effect of the STIP and TIP toward achieving the performance targets identified by the State in the long-range statewide transportation plan and by MPO in the MTP. (Ref: 23 CFR 450.218(q) and 326(d))
9. STIP/TIPs include a linkage from the investment priorities in the TIP/STIP to achievement of performance targets in the plans. (Ref: 23 CFR 450.218(q) and 326(d))

KTMPO continues to address these requirements through coordination, consultation, and implementation between KTMPO and different agencies and stakeholder groups. By adhering to these requirements, KTMPO continues to develop a safe, efficient, and resilient transportation network for all users.

TIP Financial Summary

Transportation legislation mandates fiscal responsibility in the preparation of all transportation plans and programs. In particular, the TIP is required to include a financial summary that outlines the source and amount of expected funds for all submitted projects. Federal Highway Administration (FHWA) and Federal Transit Administration (FTA) funding requirements also mandate that all highway and transit projects receiving federal, state, or locally-significant funding be identified and prioritized in the TIP. A project may not be included in the TIP if full funding cannot be reasonably anticipated before the

project is let for construction or implementation.

Public Engagement

Public engagement is an important component in the transportation planning process. In 2023 KTMPO updated the Public Participation Plan (PPP) now called the Public Engagement Plan (PEP). The PEP sets forth the means in which KTMPO provides the public with the opportunity to voice ideas and concerns on the preparation of transportation plans and projects. As part of developing and/or amending the TIP, KTMPO is required by federal law to provide the public with opportunities to be involved in the planning process.

The PEP requires the following opportunities for public input:

New TIP Development:

- A thirty (30) day public comment period; and
- A minimum of two (2) public meetings, one meeting will be held in Belton or Temple on the East side of the region and a second meeting will be held in either Copperas Cove, Harker Heights or Killeen to serve the West side of the region.

TIP Amendments:

- A fifteen (15) day public comment period; and
- At least one public meeting in a location close to the affected area(s) if possible and appropriate.

Title VI

KTMPO has a Title VI Plan, and KTMPO's PPP includes Title VI/Environmental Justice (EJ) principles in order to provide opportunities for potentially disadvantaged populations to participate in the planning process. Public meetings are encouraged to be held in Environmental Justice Communities of Concern.

KTMPO MTP / TIP Project Selection Process

KTMPO has developed a four-step project selection process for transportation planning. This is a coordinated effort between regional entities and KTMPO to identify and prioritize projects during each MTP update cycle. The KTMPO MTP project selection process is as follows:

Project Submission

KTMPO, in cooperation with TxDOT, will issue a call for projects to MPO entities. Those entities will then submit projects for consideration in KTMPO's planning process.

Project Review and Evaluation

Once received, KTMPO staff will review and conduct technical and objective scoring of

the submitted projects. Projects must meet the following criteria:

- Be consistent with KTMPO long-range goals;
- Have an identified local funding source for match requirements; and
- Have a project readiness and implementation timeline.

KTMPO Technical Advisory Committee Recommendation

After review and evaluation, the KTMPO Technical Advisory Committee (TAC) will score any subjective criteria and prioritize projects. The TAC will then recommend their prioritization to the Transportation Planning Policy Board (TPPB) for review and approval.

KTMPO Transportation Planning Policy Board Review and Approval

The TPPB will then review and adopt or reject candidate projects for inclusion in the KTMPO's MTP. If adopted, then those projects will be included in the MTP. If rejected, the project listing will be sent back to the TAC for further review and evaluation.

The process for selecting projects for the TIP is a subset of the above plan. Projects included in the TIP are selected from the following sources:

- Projects listed in the last two fiscal years of the previous TIP;
- Projects that have not let for construction can also be advanced from earlier fiscal years of the previous TIP;
- Projects from the financially constrained component of the MTP;
- From the Texas Department of Transportation's (TxDOT) ten-year *Unified Transportation Program* (UTP), including environmental and feasibility studies;
- Additional projects from local governments, transit agencies, and other member agencies.

All projects selected for the TIP must be in the funded portion of the MTP project listing and must meet the required criteria outlined above.

FY2025-2028 Project Listings

- Federally and State Funded Highway Projects
- Grouped Projects
- Federally Funded Transit Projects

FY2025-2028 Grouped Projects Statewide CSJs

See Appendix B for Candidate Project List

Grouped Project CSJ Program

The State of Texas groups several types of projects into general categories that are fiscally constrained on a statewide basis. These categories generally cover preventive maintenance, rehabilitation, bridge replacement, and other miscellaneous projects that do not fit within a specific category. Expenditures within these categories are based upon need, which may arise suddenly due to acts of nature, crash damage, etc. Due to the nature of these types of projects, KTMPO will participate within the grouped CSJ program.

Preliminary Engineering

TxDOT ID: 5000-00-950

- Appendix C: MPO Self-Certification
- Appendix D: Extended Project Listing
- Appendix E: TIP Amendment Summary
- Appendix F: Public Involvement Documentation

Appendix A: Funding Categories

This appendix includes a list and brief description of each category for transportation projects and programs used by the Texas Department of Transportation for distributing funds. These categories comply with federal transportation legislation to ensure that federal funds are applied to eligible projects.

Funding Categories

Texas Department of Transportation (TxDOT) Funding Categories:

- **Preventive Maintenance and Rehabilitation (CAT 1):** Preventive maintenance and rehabilitation of the existing state highway system, including pavement, signs, traffic signals, and other infrastructure assets. Preventive Maintenance defined as work to preserve, rather than improve the structural integrity of a pavement or structure. Rehabilitation the installation, replacement and/or rehabilitation of signs and their appurtenances, pavement markings, thermoplastic striping, traffic signals, and illumination systems, including minor roadway modifications to improve operations.
- **Metropolitan and Urban Corridor Projects (CAT 2):** Mobility and added capacity projects on urban corridors to mitigate traffic congestion, as well as traffic safety and roadway maintenance or rehabilitation. Projects must be located on the state highway system. Common project types include roadway widening (both freeway and non-freeway), interchange improvements, and roadway operational improvements.
- **Non-Traditionally Funded Transportation Projects (CAT 3):** Transportation-related projects that qualify for funding from sources not traditionally part of the state highway fund including state bond financing under programs such as Proposition 12 (General Obligation Bonds), Texas Mobility Fund, passthrough toll financing, unique federal funding, regional toll revenue, and local participation funding.
- **Statewide Connectivity Corridor Projects (CAT 4):** Mobility and added capacity projects on major state highway system corridors which provide statewide connectivity between urban areas and corridors. Projects must be located on the Texas Highway Trunk System, NHS, connections to major ports or border crossings, the National Freight Network, or hurricane evacuation routes.
- **Congestion Mitigation and Air Quality Improvement (CAT 5):** Congestion mitigation and air quality improvement area projects to address attainment of a national ambient air quality standard in nonattainment areas of the state.
- **Structures Replacement & Rehabilitation (CAT 6):** Replacement and rehabilitation of deficient existing bridges located on public highways, roads, and streets in the state; construction of grade separations at existing highway and railroad grade crossings; and rehabilitation of deficient railroad underpasses on the state highway system.
- **Metropolitan Mobility & Rehabilitation (CAT 7):** Transportation needs within the boundaries of MPOs with designated as Transportation Management Areas (TMAs). Common project types include roadway widening, new roadways, and interchange improvements.
- **Safety (CAT 8):** Safety-related projects both on and off the state highway system including the federal Highway Safety Improvement Program (HSIP), Systemic Widening Program (SSW), and Road to Zero (RTZ).

- **Transportation Alternatives Program (CAT 9):** Transportation-related activities as described in the Transportation Alternatives Set-Aside Program, such as construction of sidewalks, bicycle infrastructure, pedestrian and bicycle signals, traffic-calming techniques, lighting and other safety-related infrastructure, and transportation projects to achieve compliance with the Americans with Disabilities Act. Construction of infrastructure-related projects that provide safe routes for non-drivers.
- **Supplemental Transportation Projects (CAT 10):** Transportation-related projects that do not qualify for funding in other categories, including landscape and aesthetic improvement, erosion control and environmental mitigation, construction and rehabilitation of roadways within or adjacent to state parks, fish hatcheries, and similar facilities, replacement of railroad crossing surfaces, maintenance of railroad signals, construction or replacement of curb ramps for accessibility to pedestrians with disabilities, and miscellaneous federal programs.
- **Carbon Reduction (CAT 10CR):** Projects designed to reduce transportation emissions, defined as carbon dioxide (CO₂) emissions from on-road highway sources.
- **District Discretionary (CAT 11):** Projects eligible for federal or state funding selected at the discretion of the TxDOT District.
- **Strategic Priority (CAT 12):** Projects with specific importance to the state including those that generally promote economic opportunity, congestion and connectivity, energy sector access, border and port connectivity, increase efficiency on military deployment routes or retain military assets in response to the federal military base realignment and closure reports, and maintain the ability to respond to both manmade and natural emergencies.
- **Develop Authority (DA):** Focuses on advanced planning activities. Specific projects selected by the districts in coordination with MPOs to ensure alignment with the MTP.

Federal Transit Administration Funding Categories

FTA 5307	Federal grant funds for transit projects in urbanized areas with a population of 50,000 or more persons.
FTA 5310	Federal grant funds available to regional transit agencies to provide transportation services to the elderly and disabled (paratransit service).
FTA 5311	State transit funds provided to rural transit providers for the purpose of supporting public transportation in rural areas with population of less than 50,000.
FTA 5339	Federal transit funds provided to replace, rehabilitate, and purchase buses and related equipment and to construct bus-related facilities.

Appendix B: Grouped Candidate Project Listing

This appendix provides a list of individual projects/programs considered to be of inappropriate scale for individual listing in a given program year and is provided for informational purposes. Additional projects/programs may be identified that are not currently listed. Grouping allows efficient programming and reduces the need for revisions to the TIP. No added capacity type projects or phases of added capacity type projects are included.

Appendix C: MPO Self-Certification

In accordance with 23 CFR part 450.336, the Texas Department of Transportation and the Killeen-Temple Metropolitan Planning Organization for the Killeen and Temple urbanized area(s), hereby certify that the metropolitan transportation planning process is addressing the major issues in the metropolitan planning area and is being conducted in accordance with all applicable requirements of:

1. 23 U.S.C 134, 49 U.S.C 5303, and this 23 CFR 450 subpart C;
2. Title VI of the Civil Rights Act of 1964, as amended (42 U.S.C. 2000d-1) and 49 CFR part 21;
3. 49 U.S.C. 5332, prohibiting discrimination on the basis of race, color, creed, national origin, sex, or age in employment or business opportunity;
4. Section 1101(b) of the FAST Act (Public Law 114-357) and 49 CFR part 26 regarding the involvement of Disadvantaged Business Enterprises in US DOT-funded projects;
5. 23 CFR part 230, regarding the implementation of an equal employment opportunity program on Federal and Federal-aid highway construction contracts;
6. The provisions of the Americans with Disabilities Act of 1990 (42 U.S.C. 12101 et seq.) and (49 CFR parts 27, 37, and 38);
7. The Older Americans Act, as amended (42 U.S.C. 6101), prohibiting discrimination on the basis of age in programs or activities receiving Federal financial assistance;
8. Section 324 of title 23 U.S.C. regarding the prohibition of discrimination based on gender; and
9. Section 504 of the Rehabilitation Act of 1973 (29 U.S.C. 794) and 49 CFR part 27 regarding discrimination against individuals with disabilities.

Appendix D: Extended Project Listing

This appendix contains a list of projects that are undergoing preliminary engineering and environmental analysis (PE/EA) consistent with early project development. The Federal Highway Administration allows these projects to be referenced in the current TIP in order to facilitate the feasibility and PE/EA phases.

Extended Project Listing

Killeen-Temple Metropolitan Planning Organization

Transportation Improvement Program

District:	Waco	County:	Bell
Highway:	Temple Outer Loop West Phase II	Let Date:	2029
KTMPO ID:	T40-07b	CSJ:	0909-36-174
Description:	Widen from 2 to 4 lane divided roadway with a curb and gutter; construct new hike and bike trail		
Limits From:	20 ft North of Riverside Trail		
Limits To:	IH-35 S	Estimate:	\$28,000,000

District:	Waco	County:	Bell
Highway:	Chaparral Rd Phase 2	Let Date:	2029
KTMPO ID:	K30-13b	CSJ:	0909-36-172
Description:	Reconstruct and widen roadway from 2 to 4 lane divided roadway with bicycle/pedestrian facilities		
Limits From:	SH 195		
Limits To:	FM 3481 (Stillhouse Hollow Lake Rd)	Estimate:	\$6,459,249

District:	Waco	County:	Bell
Highway:	FM 93	Let Date:	2030
KTMPO ID:	W30-17	CSJ:	1835-01-026
Description:	Widen from 2 ln to 4 ln divided, shared use path		
Limits From:	SH 317		
Limits To:	Wheat Rd	Estimate:	\$16,800,000

District:	Waco	County:	Bell
Highway:	IH 35	Let Date:	2031
KTMPO ID:	T15-06k	CSJ:	0015-14-109
Description:	(Future IH 14) Widening		
Limits From:	US 190		
Limits To:	LP 363	Estimate:	\$308,000,000

District:	Waco	County:	Bell
Highway:	Loop 121 Phase II	Let Date:	2033
KTMO ID:	W40-04b	CSJ:	2502-01-024
Description:	Widen 2 ln to 4 ln with raised median, 10' SUP, 6' sidewalk		
Limits From:	US 190/IH14		
Limits To:	IH 35	Estimate:	\$ 21,280,000

District:	Waco	County:	Bell
Highway:	SL 323/US 190	Let Date:	2034
KTMO ID:	W30-23	CSJ:	0184-04-051
Description:	Expand to 4 FRWY with grade separation and FRTG		
Limits From:	FM 1741		
Limits To:	FM 436	Estimate:	\$115,360,000

District:	Waco	County:	Bell
Highway:	SH 36	Let Date:	TBD
KTMO ID:	W25-02	CSJ:	0184-02-056
Description:	Widen from 2 ln to 4 ln divided		
Limits From:	SH 317		
Limits To:	Lake Belton Bridge	Estimate:	\$44,800,000

District:	Waco	County:	Bell
Highway:	FM 439	Let Date:	2045
KTMO ID:	W35-04	CSJ:	0836-03-069
Description:	Widen from 2 ln to 4 ln CLT		
Limits From:	Roy Reynolds Dr		
Limits To:	FM 3219	Estimate:	\$13,440,000

District:	Waco	County:	Bell
Highway:	FM 3481 Phase 1	Let Date:	2040
KTMO ID:	H45-03	CSJ:	3409-01-007
Description:	Widen 2 ln to 4 ln CLT		
Limits From:	Prospector Trail		
Limits To:	Proposed Chaparral Rd intersection	Estimate:	\$7,276,640
